Dear Sir,

REF: A LETTER OF APPRECIATION FOR THE PHASE TWO COMPUTER PROJECT.

The department of secondary education in Bunda Town Council pleased to see all of these efforts shown by your organization; we are also very technological "PRO" especially in this era where technology connects the world.

We will make sure the facility is well looked after and my staff will be making regular visits to the named school (Sazira Secondary) to see the well being and the progress of the project.

In the coming days we are looking forward to see the rest of the schools in Bunda Town Council are affected by the goodies of the project that you conduct and sometimes partly donate some funds when available and seeing the dream is fulfilled.

You're sincerely

James K Mgoma
